Song: Skydiving

Year: 2009

Verse1

Only six o'clock in the morning and my heartbeat is out of control
Ten minutes until boarding feels like I'm about to explode
Time for the ride up, tension starting to swirl
I can't believe I'm gonna free fall from top of the world
Senses peaked, with a crazy anticipation
Feeling like this, tell me how the hell can I be patient
Jumpsuit, rig, google, helmet all in place
double checking just in case
I'm elated baby, freedom one green light away, and I just can't wait

Chorus

Every time you wanna feel freedom in life, just go, skydiving baby, go skydiving, yeah

Verse2

Ready-Set-Go
Spread my wings, time to fly
One step out, all it takes for me to touch the sky
So amazing, so liberating
12000 feet, AGL, so breathtaking
Belly down, boxman now
4 minutes of pleasure, without, any spark of distraction around
State of mind euphoria, wish it could last forever
from this day on, nothing can stop us from getting back together

Chorus

Every time you wanna feel freedom in life, just go, skydiving baby, go skydiving, yeah

Break:

I love the sky baby

Outro
